General Guidelines All Classes

1. No passenger riders allowed.
2. Drivers must wear seatbelts and a DOT approved helmet when on the track. 4 Point harness is not required but recommended.
3. There will be no practice runs before the show starts.
4. The competition will consist of timed runs on a closed course. Official time will be kept at the announcing stand. Missing a gate adds ten seconds to elapsed time; competitors missing three gates will be disqualified.
5. Starter will be stationed at start/stop line and track officials will be stationed at strategic locations. In the unlikely event of any disagreements, the event coordinator will have final authority.
6. Track officials may disqualify any truck and stop the run at any time if they feel that spectators are being endangered, this includes intentional or reckless hitting of concrete safety barriers.
